JOKE OF THE DAY

A mom texts, "Hi! Son, what does IDK, LY, & TTYL mean?" He texts back, "I Don't Know, Love You, & Talk To You Later." The mom texts him, "It's ok, don't worry about it. I'll ask your sister, love you too."

*(Model text – it can help you with your Canada Presentation/ Poster/ Paper)
You can use sentences from this text for your Canada text.*

My Australia Presentation/ Poster/ Paper

1) Facts and Figures

Australia is the world's largest island. Its size is more than 20 times bigger than Germany. But only 25 million people live in Australia – that's less than half of the number of people in Germany.

Australia's capital is Canberra, a city in the south east of the country.

2) History

The British captain James Cook discovered Australia in the year 1770. He said it should belong to his "boss", the British King George 3rd. That's why the Australian flag still shows the Union Jack (the flag of the United Kingdom). And until today the British Queen is still the head of the country.

But of course Australia had a long history before 1770. The oldest people in Australia are the Aborigines who were the owners of the land before the British sailors came. For a long time after the British sailors had come the Aborigines were treated in a very unfair way. And until today they are fighting for their rights: Only a year ago after a very long time the Aborigines got back a holy place (called Uluru) that many years tourists had climbed up without respect.

3) Famous activities

Australians love many different sports: Football, basketball, swimming, windsurfing are some examples. And a very special sport is cricket:

Two teams play against each other. It works a little bit like "Brennball" or baseball: Team A has two people on the pitch. One tries to beat a ball (he hits it with a bat, that's why his name is "batsman"). A person from Team B throws the ball at the batsman very fast.

When the batsman makes a good hit his teammate can run between two lines to get points for his team. The people from Team B stand in the pitch and try to throw the ball back as fast as possible. It sounds difficult – but it's exciting. Have a look at a match on youtube!

4) Famous people

I chose a famous musician: Her name is Kylie Minogue, she is an Australian singer, songwriter and actress. She was born and grew up in Melbourne, but she has lived in the United Kingdom for many years now. She has sold more than 70 million records and won many awards. One of her latest songs is "Stop me from Falling".

5) What else is interesting about Australia?

A funny aspect is the weather: When it's winter in Australia it's summer in Europe – and vice versa. That's because Australia is in the southern hemisphere. So be careful when you plan a trip!
